

We are happy to say that all our study tour groups were successful and we had a wonderful time with groups from Hong Kong and Japan.

Here are some pictures from their farewell party with our homestay families. All homestay families attended this event, shared a good time with their students and experienced Japanese culture.

Issue 17

CCE Teachers' Profile

Angie

I'm a teacher at CCE. I have more than 14 years teaching experience. I love teaching because I am also learning so many new things about my job and people.

In my free time I like to enjoy the natural areas of this beautiful country. I also love music, dancing, swimming, reading, and hanging out with my cat.

The most important thing about being an Australian is to understand and appreciate the balance between our work and free time. That's why I am so proud to be one!

Andrew

Hi, I'm Andrew. I'm from the U.S. originally, but I have been living and working in Cairns since 2008. I previously taught English in both South Korea and Japan and enjoy being in the classroom and getting to know our students. In my free time, I enjoy being with my family. We live near the beach, so I'm able to take my big, fluffy dog for a walk on the beach every day. I hope you'll come to Cairns and study with us. You can meet lots of cool people and when you aren't studying, you can relax here in the tropics.

Next month, we introduce Vanessa & Ian ;-)

2: Young Learners Program in December—Summer Christmas in Australia

As we are getting lots of inquiries for YLP in December. We have decided to run YLP in December this year.

Date: 26 December 2011— 6 January 2012

Please contact us with more details

For Young students who...

- Want to improve their English skills in a fun learning environment
- Want to do a variety of activities in and outside the classroom
- Experience Australian culture
- Want a small English class with experienced teachers
- Want to meet friends from all over the world!

My good experience with homestay family in Cairns

Guilherme Angelo COELHO (Brazil)

"Living with a host family gives the student several advantages. The family can offer more than a room and bed. This is especially important in relation to the opportunity to apply the language skills acquired at school directly to daily life and to practice them with a native speaker. You will experience the culture of the country in the optimal conditions for successful language learning. Also, living in a pleasant environment with the comforts that remind you of your home country are essential. I am improving my English quickly and I have all the support, advice and assistance necessary through living with a host family. In all aspects of living, studying or just getting to know another country, I recommend staying with a host family! It's a great life experience!"
